
1650 Transmission Flush Adapter Set

Set of adapters to allow flushing of transmission systems. Wide variety of adapters allow for convenient hook up to most domestic and many non domestic systems. Adapters available to allow use with most flushing systems.

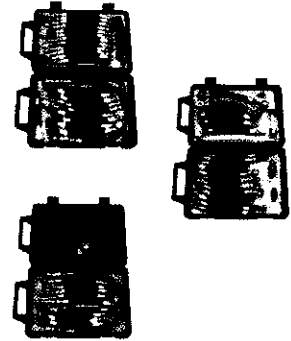

Diesel Cleaning Adapters

Use the following adapter sets with your cleaning system to introduce cleaners for diesel engine fuel systems. Adapters available to convert to most cleaning systems.

2760 For most heavy duty diesel engines

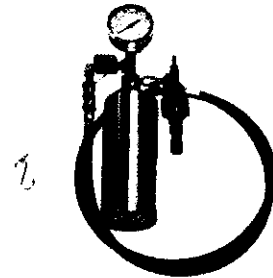

2765 For most light duty diesel engines

2770 Basic set for many domestic light duty diesel engines.

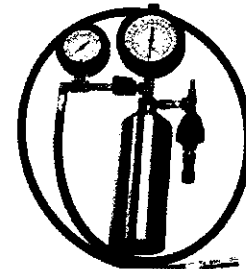

2540 Cleaning Canister

Includes hang up hook and sight glass for monitoring fluid flow. Quick coupler connection allows use with our #2550 adapter set. Easily adaptable to other adapter styles. Uses shop air, large 26 ounce capacity.

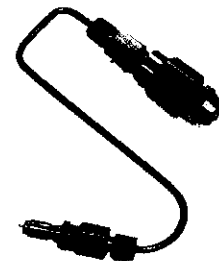

2530 Dual Head Cleaning Canister

Dual head feature allows accurate testing of vehicle system pressure independent of the canister. Quick coupler connection allows use with our #2550 adapter set. Easily adaptable to other adapter styles. Uses shop air, large 26 ounce capacity.

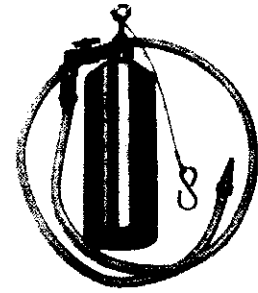

2845 Throttle Bottle Sprayer

Spray assembly attaches to our canisters to provide a uniform spray mist for cleaning throttle bodies.

2870 Intake Cleaning Canister

Allows cleaning of intake manifolds. Attach cone to vacuum line closest to the intake manifold. If you already own one of our other canisters, use #2860 to buy the unit less canister.

6226 Spark Plug Adapter - 16mm

16mm adapter threads on to any gasoline engine compression tester with an existing 14mm adapter. For Ford Triton Engines.

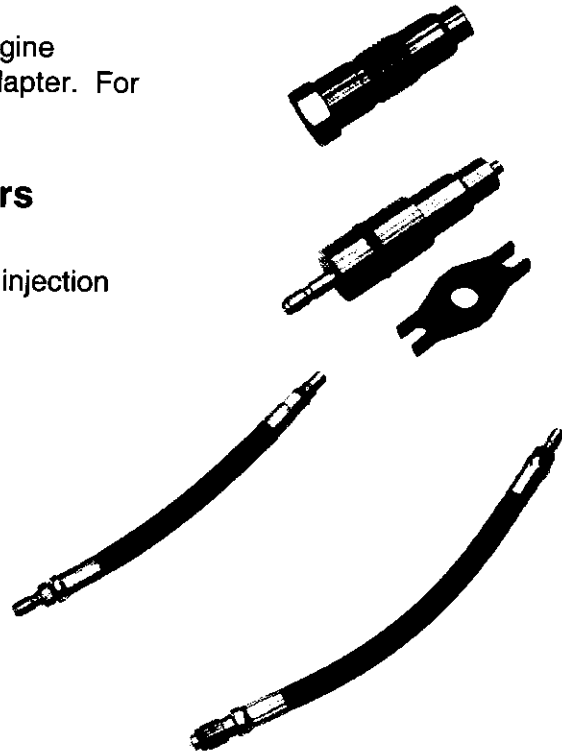

Diesel Compression Test Adapters

6655 For injectors on Dodge/Cummins ISB

6668 For glow plugs on 7.3L Ford with direct injection
(10mm x 1.0)

6683 For glow plugs on Kubota engines
(8mm x 1.0)

6690 For glow plugs on Ford 6.0 & 6.4L
(14mm x 1.25)

Brass Punches

Use brass punches to avoid sparking or marring on metal surfaces.

1010 5/8" hex, 8" long

1012 3/4" round with knurled handle, 8" long
